Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I don't feel that I should have to pay to supply telephone and cable service to people who choose to live in remote areas. I have to deal with city life and all its complications. If they choose to live out in remote regions, they should accept the consequences. Also cable is a luxury that even I can't afford. The reason I use Tracfone is because of its low cost. I use it for safety reasons as I am disabled and need to be in touch in case of an emergency. I don't use it for regular phone service.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
